## **PREVENTIVE SCREENING WELLNESS BENEFIT**

**HEART, STROKE, ANEURYSM AND THYROID CANCER (nodule) SCREENING**

**45 MINUTES AND EARLY DETECTION COULD SAVE YOUR LIFE...  
GET SCREENED!**

**NON-INVASIVE SCREENING:** This preventive screening program focuses on identifying early stages of heart disease, carotid (stroke), thyroid cancer (nodules), Abdominal Aortic Aneurysm (AAA)

- **THYROID NODULE SCREENING** - to identify nodules that are difficult to feel.
- **ECHOCARDIOGRAM** - looks at size, shape and movement of the heart.
- **CAROTID ARTERY ULTRASOUND** - can identify plaque in the carotid arteries which can lead to stroke.
- **ABDOMINAL AORTIC ANEURYSM (AAA)** - Most aneurysms have no symptoms but a ruptured aneurysm can be life-threatening.

**These diseases are preventable if detected and treated early** and are rarely screened for in your annual physical. Most people are symptom free and therefore most insurance companies will not cover the screens that identify their risk factors.

**FREE for members and spouses participating in the  
Local 295 H & W Fund and United Teamster Fund**

**HeartScan Service locations:**

- **3000 Hempstead Turnpike (4<sup>th</sup> floor -suite 417)-Levittown, NY 11757**
